

Pisini Pradeep

Java Backend Developer

pradeep.pisini.india@gmail.com | +91-7287909358 | [LinkedIn](#) | [GitHub](#) | Chennai, Tamil Nadu, IN

PROFESSIONAL SUMMARY

Java Backend Developer with 3 years of experience building scalable banking and payment processing applications using Java, Spring Boot, Microservices, Rest API's Apache Kafka, Apache Flink, MongoDB, and SQL. Experienced in event-driven architecture, CI/CD automation, Docker and OpenShift deployments, production support, and legacy COBOL modernization. Delivered backend services for settlement, billing, and dispute workflows with a strong focus on reliability, maintainability, and performance.

TECHNICAL SKILLS

Languages	Java, SQL, PowerShell
Backend	Spring Boot, RESTful APIs, Microservices, Swagger/Open API, JPA, Hibernate, Streaming & Messaging, Apache Kafka, Apache Flink
Databases	MySQL, MongoDB, SQL Server
DevOps / Tools	Git, GitHub, Jenkins, Jira, VS Code, Docker, OpenShift
Testing	JUnit, Mockito, Agile, CI/CD, Production Support

PROFESSIONAL EXPERIENCE

Associate Software Engineer — Mphasis

Full-time | Nov 2023 – Present

Client: Fiserv — Banking & Payment Processing (Nov 2023 – Present)

Tech Stack: Java | Spring Boot | Microservices | REST APIs | JPA/Hibernate | Apache Kafka | Apache Flink | MongoDB | Docker | OpenShift | Jenkins | SQL | COBOL Modernization

- **Developed and maintained RESTful microservices** for settlement, billing, and dispute processing using **Java, Spring Boot, JPA, and Hibernate**.
- **Built event-driven processing pipelines** using **Apache Kafka** and **Apache Flink** integrated with **MongoDB** for low-latency transaction processing
- **Designed and implemented backend** services and **REST APIs** to support payment processing integrations across enterprise applications.
- **Containerized microservices** with **Docker** and deployed on **OpenShift**, improving deployment consistency and scalability across environments.
- Configured and maintained **Jenkins CI/CD** pipelines to automate build, test, and deployment workflows, improving release reliability.
- Modernized legacy **COBOL modules into Java microservices**, improving maintainability, scalability, and long-term supportability.

Quadient Inspire — Customer Communication Management. (2025)

Tech Stack: Quadient Inspire Designer | Customer Communication Management

- Developed **dynamic customer communication templates** in Quadient Inspire Designer for personalized bank statement and customer correspondence generation.
- Designed and configured document composition workflows to generate proof-ready PDF outputs for business review and delivery
- Configured **Data Input, 1-Many Merger**, and **Data Transformer** components to ingest, combine, cleanse, and format multi-source input data.

- Implemented **Data Sorter** and **Group By** logic for account-based grouping and structured output presentation.

PROJECTS

Project 1: Enterprise Database Deployment Automation Framework

Tech Stack: PowerShell, SQL Server, HTML Reporting, CSV Reporting | 2026

- Designed and developed an enterprise database deployment automation framework for SQL Server release management.
- Implemented state management, checkpoint tracking, and resumable execution to support failure recovery and restartable deployments.
- Built automated preflight validation to verify SQL script readiness before each deployment execution.
- Developed audit logging, execution tracking, and HTML/CSV reporting for deployment traceability and operational visibility.
- Automated end-to-end release workflows with dry-run support and versioned script ordering to reduce manual effort.

Project 2: Speech-to-Text Application

Tech Stack: Java 17, Spring Boot, Browser Web Speech API | 2026

- Developed a speech-to-text web application with real-time voice capture using the Browser Web Speech API.
- Built RESTful backend APIs in Spring Boot to process transcribed speech and persist timestamped records.
- Integrated Apache POI to generate and maintain Excel-based speech logs for structured reporting.
- Implemented reporting features to retrieve and display historical transcription data through a web interface.

LANGUAGES

English (Professional) | Telugu (Native)

EDUCATION

B.Tech in Electronics & Communication Engineering

KL University | 2022 | CGPA: 8.45 / 10

AWARDS

Kudos Award (3 Times)

- Recognized for delivering internal engineering applications within tight timelines through effective cross-team collaboration.
- Appreciated for proactive contribution to technical innovation and continuous skill development.

Synergic Workforce Award.

- Awarded for ownership, delivery consistency, and adaptability across project requirements in enterprise development environments.

CERTIFICATIONS

- Certified Java Full Stack Developer – Mphasis (Simplilearn)
- Master AI Spec-Driven Development with BMAD Method
- Huawei Certified ICT Associate – Artificial Intelligence
- Huawei Certified ICT Associate – Routing
