PROFESSIONAL SUMMARY

Java Backend Developer with 3+ years of experience building scalable banking and payment processing applications using Java, Spring Boot, Microservices, REST APIs, Apache Kafka, Apache Flink, MongoDB, and SQL. Experienced in event-driven architecture, CI/CD automation, Docker and OpenShift deployments, production support, and legacy COBOL modernization. Delivered backend services for settlement, billing, and dispute workflows with a strong focus on reliability, maintainability, and performance.

TECHNICAL SKILLS

Languages

Java

SQL

PowerShell

Backend

Spring Boot

Microservices

REST APIs

Swagger/OpenAPI

JPA

Hibernate

Streaming & Messaging

Apache Kafka

Apache Flink

Event-Driven Architecture

Databases

MySQL

MongoDB

SQL Server

DevOps & Tools

Git

GitHub

Maven

Jenkins

Docker

OpenShift

Postman
IntelliJ IDEA

Testing
JUnit
Mockito
Practices
Agile
CI/CD

Production Support
Monitoring
Incident Resolution
API Documentation

PROFESSIONAL EXPERIENCE

Mphasis Ltd | Associate Software Engineer

Client: Fiserv – Banking & Payment Processing November 2023 – Present | Chennai, India

Developed and maintained RESTful microservices for settlement, billing, and dispute processing using Java, Spring Boot, JPA and Hibernate.
Built event-driven processing pipelines using Apache Kafka and Apache Flink integrated with MongoDB for payment transaction workflows.
Designed and implemented backend services and REST APIs to support payment processing workflows and integration across enterprise applications.
Containerized microservices using Docker and deployed applications on OpenShift, enabling consistent deployments and improved scalability across environments.
Configured and maintained Jenkins CI/CD pipelines to automate build, testing, and deployment activities, ensuring reliable software delivery.
Monitored production applications, investigated runtime issues, resolved incidents, and contributed to the modernization of legacy COBOL applications into Java-based microservices.

Quadient Inspire – Customer Communication Automation

Supported customer communication workflows using Quadient Inspire Designer for template configuration and multi-channel document generation.

L&T Technology Services (LTTS) | Engineer Trainee

March 2023 – June 2023

Completed technical training in Java programming, SQL, and software development fundamentals.

Worked on development assignments involving backend programming, debugging, and database operations.

PROJECTS

Enterprise Database Deployment Automation Framework

PowerShell, SQL Server, HTML/CSV Reporting | 2025-2026

Designed and developed an enterprise database deployment automation framework for SQL Server release management.

Implemented state management, checkpoint tracking, and resumable execution for failure recovery and restartable deployments.

Built an automated SQL validation engine using dynamic script analysis for deployment verification and data integrity checks.

Developed audit logging, execution tracking, and HTML/CSV reporting for operational visibility and deployment traceability.

Automated end-to-end deployment workflows, reducing manual effort and improving consistency across environments.

Speech-to-Text Application

Java 17, Spring Boot, Apache POI | 2026

Developed a speech-to-text application with real-time voice capture using Browser Web Speech API.

Built REST APIs to process transcribed speech and store timestamped records in Excel reports using Apache POI.

Developed reporting functionality to retrieve and display speech history through a web interface.

iMyTravelApp

Java 8, Spring Boot, MySQL | 2023

Developed REST APIs with complete CRUD functionality across multiple modules.

Designed relational entities using JPA and Hibernate for efficient data persistence.

Implemented layered architecture following Controller-Service-Repository design principles.

Utilized Spring Data JPA and Hibernate for schema management and database operations.

EDUCATION

Bachelor of Technology (Electronics & Communication Engineering)

KL University | 2018 - 2022

CGPA: 8.45

AWARDS

Kudos Award (3 Times)

Recognized for delivering internal applications under tight timelines through effective collaboration.

Appreciated for proactive contribution to innovation initiatives and continuous upskilling.

Synergic Workforce Award

Awarded for ownership, delivery consistency, and adaptability to project requirements.

CERTIFICATIONS

Certified Java Full Stack Developer – Mphasis (Simplilearn)

Master AI Spec-Driven Development with BMAD Method

Huawei Certified ICT Associate – Artificial Intelligence (HCIA-AI)

Huawei Certified ICT Associate – Routing and Switching (HCIA-RS)
